## **FROM THE CHAIRMAN**

We are happy to be united for a social cause and for the development of society. We are committed to have more development oriented chapters in our AREA and organization. We hope that we will achieve our goals in the course of time. I think our members and staff by whom we are able to achieve our goal in this year. We are able to achieve and expert are health, education, environment and rural development. I hope in future we will develop more for a greater socio economic development of our AREA.

## **FROM THE DESK OF THE SECRETARY/DIRECTOR:**

Participation in social activity is our Dharma not business. WORD is not only a word but it is an expression of group of social minded people who wants to establish it as a caring hand for the needy people. In presenting the Annual Report of WORD for the period 2021-2022. I take the opportunity to offer cordial thanks to my friends, colleagues, social workers and the people of the area whose earnest cooperation and active support helped us proceed to our work throughout the year for the development of women and children of the area. By and large our activities are dedicated to the social and economically weaker section of the country focusing on community based integrated development with the active stone unturned in developing the status of distressed people especially for empowerment of women and children in the Health Sector.

Efforts on elimination of women's poverty, spread of education among non school going and drop out children, natural resource management with community participation for enhancing income earning facilities at their door step, improvement of health status with the emphasis on preventive measures would have further strengthened if the government, national and international development agencies extended helping hands to this noble mission.

The benefit of globalization and liberalization has not reached to the poor people. Because poor illiterate people have no access to improve their quality in life and participate in the competitive areas. WORD has been striving to strengthen the empowerment process for these poor illiterate distressed and oppressed people with its very limited resources.

I, on behalf of the WORD would like to express my sincere gratitude to friends, well wishers, government and non government agencies within the country and abroad for their generous financial and moral support.

We are very careful about the financial matters of our organization. We consistently work for the planning. Budgeting and proper financial management by keeping clean accounts for.

I take this opportunity to thank the members of Governing Body and the accounting staff WORD for their effort in accounting and financial management, encouragement, support.

### **TREASURER'S NOTE:**

We are very careful about the financial matters of our organization. We consistently work for the planning. Budgeting and proper financial management by keeping clean accounts. I take this opportunity to thank the members of Trustee member and the accounting staff WORD for their effort in accounting and financial management, encouragement, support.

### **CONCLUSION:**

WORD for us is nothing but Truth. Participation in Social Activities is our dharma, not Business. It is our instrument to build a better society. We are committed to discharge our social and national responsibilities. For us profit earning and compromise are not the staple diet. We believe that those who are chasing money and power should get out of the organization.

“Self Reliance is the key to Success” Believe the above saying “WORD” has given a support hand to the animal, poor and downtrodden of the “Service to People is Service to God”.

In the course of our operation, the organization has faced many obstacles and hurdles. But nothing could interrupt us in our way towards the achievement for a bright future. Single success is followed by a number of failures. Keeping the saying in our mind the organization’s action continues towards its mission.

**(Sarmistha Paikray)**
