I take the opportunity to offer cordial thanks to my friends, colleagues, social workers and the people of the area whose earnest cooperation and active support helped us proceed to our work throughout the year for the development of women and children of the area. By and large our activities are dedicated to the social and economically weaker section of the country focusing on community based integrated development with the active stone unturned in developing the status of distressed people especially for empowerment of women and children in the Health Sector.

Efforts on elimination of women’s poverty, spread of education among non school going and drop out children, natural resource management with community participation for enhancing income earning facilities at their door step, improvement of health status with the emphasis on preventive measures would have further strengthened if the government, national and international development agencies extended helping hands to this noble mission.

The benefit of globalization and liberalization has not reached to the poor people.
